

EVACUATION: WHAT DO YOU NEED TO KNOW?

1. YOU RECEIVE THE MESSAGE TO EVACUATE

In case of acute or imminent danger, it may be necessary to leave the area.

2. WHAT SHOULD YOU DO?

1

Always follow the **instructions** of the emergency services and authorities.

2

Take your **emergency kit** or a minimum of personal belongings:

- **ID card**
- **money**
- **mobile phone and charger**
- **essential medication.**

4

Turn off **water, gas and electricity.** Leave your home and lock the doors and close the windows.

3 **PET?**

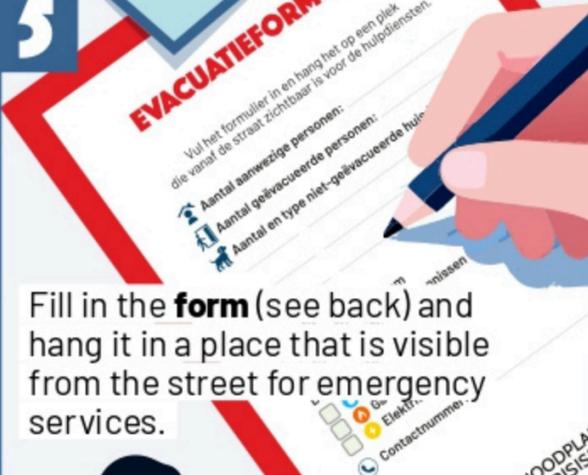

- Take your **pet** with you, along with a crate, a leash, some food and any medication.
- Make sure your home can be identified, for example through the pet's passport.

• Can't take your pet? Leave enough food and water for 24 hours. Follow further recommendations if you will be away longer.

5

Fill in the **form** (see back) and hang it in a place that is visible from the street for emergency services.

6

Go to **friends/family** outside the affected area or to the **reception centre.**

7

ALSO WAIT FOR A SIGNAL FROM THE AUTHORITIES BEFORE RETURNING HOME.

STILL HAVE TIME?
Check whether neighbours need help leaving, especially elderly or less mobile people.

UNABLE TO LEAVE?
Seek help from people nearby, from family, or call the emergency number 112.
